

# CombiStats™ Import Module

## OVERVIEW

---

### Abstract

The PLA 3.0 Document Import Module for CombiStats enables users to import documents from CombiStats into PLA 3.0 for further analysis. CombiStats is provided by the EDQM.

### Features

- Fast, secure and reliable data import of CombiStats documents.
- Import as Quantitative Response Assays or Dichotomous Assays.
- CombiStats templates are also supported.
- All imported data is fully retracable (audit trail).

## TECHNICAL SPECIFICATION

---

### Type

Document Import Module
